## **Sales Force Automation**

Equip sales with real-time access to prospect, customer, opportunity, and order records.

- Manage opportunities across status, revenue, key contacts, notes, and related documents.
- Provide sales managers with a complete view of all leads and opportunities in the pipeline.
- Capture detailed records across all interactions and convert opportunities into quotes and sales orders.

## **Reporting and Analytics**

Real-time dashboards deliver customisable, role-based reports to sales, marketing, and service teams.

- Measure continuous sales performance with personalised key performance indicators.
- Access sales goals such as achieved versus quota, actual versus sales forecast, and sales pipeline by stage.
- Monitor customer service metrics on call resolution times, customer satisfaction, subscription renewals, call volumes, and case trends.
- Examine marketing benchmarks like lead-to-close metrics, number of website unique visitors, lead-generation trends, and customer acquisition costs.

## Sales Forecasting and Quota Management

Build reliability, predictability, and trust into the sales process.

- Allow users to categorise the transaction forecast type to appropriately identify opportunities, quotes, and estimates.
- Utilise probability-based forecasting with adjustable weighted measurement of pending opportunities, quotes, and orders.
- Analyse actual sales and recurring revenue projections in forecasts and variances.

## Upsell, Quote, and Order Management

Easily convert quotes into approved sales orders and automatically process with back-end financials.

- Provide recommendations based on intelligent upsell management and buying patterns.
- Improve quote and order accuracy by including automated tax and shipping-rate calculations, pricing, and discounting rules.
- Accelerate order management with online approval and automated workflows.
