Aussie Firm Adopts Cloud Computing

Campus Living Villages (CLV) -- an Australian company that provides student accommodation at university campuses in Australia, NZ, the UK, and the US -- has awarded US developer NetSuite a contract to provide its OneWorld on-demand cloud computing solution. CLV has more than 100 subsidiaries in campus villages and development projects and has previously used different business management applications in different parts of the world -- including Intuit MRI in the US and MYOB in the Asia/Pacific region. www.netsuite.com.au
